(b) *The regulations.* (1) Persons, vessels or other craft shall not enter or remain in the prohibited area at any time unless authorized to do so by the enforcing agency.

(2) No person, vessel or other craft shall enter or remain in the danger zone when notified by the enforcing authority to keep clear or when firing is or will soon be in progress, except as provided in paragraph (b)(5) of this section.

(3) Advance notice will be given of the dates and times of all firings in the danger zone and such notice will be published in the local "Notice to Mariners." The area will be in use intermittently throughout the year. On days when firing is conducted, firing will take place normally between sunrise and 12 midnight.

(4) Prior to the commencement of firing each day in the danger zone, surface or air search of the entire area will be made for the purpose of locating and warning all craft and persons not connected with the firing, and a patrol

will be maintained throughout the duration of firing.

(5) Warning that ships are firing or soon will be firing in the danger zone will be indicated during daylight by a red flag prominently displayed from a control tower on Adams Island at latitude 38°09'06", longitude 76°05'22", and at night by a white light on top of the control tower. Warning that aircraft are firing or soon will be firing will be indicated by the aircraft patrolling the area. All persons, vessels, or other craft shall clear the area when these signals are displayed or when warned by patrol vessels or by aircraft employing the method of warning known as "buzzing" which consists of low flight by the airplane and repeated opening and closing of the throttle. As an additional warning to crabbing, fishing, and other small craft, and vessels, the control tower on Adams Island will broadcast firing intentions on citizens band radio using channels 11 and 12.

(6) During hours when firing is in progress or is about to commence, no fishing or oystering vessels or other craft not directly connected with the firing shall navigate within the danger zone, except that deep-draft vessels proceeding in established navigation lanes and propelled by mechanical power at a speed greater than 5 knots normally will be permitted to traverse the area. When ships are firing or soon will be firing in the danger zone, permission for such deep-draft vessels to enter and traverse the area will be indicated during daylight by dipping the red warning flag to half-mast, and at night flashing the warning searchlight. When aircraft are firing or soon will be firing in the danger zone, such deep-draft vessels may proceed unless warned to stay clear of the area by the method of warning known as "buzzing."

(7) When firing is not in progress or is not about to commence, oystering and fishing boats and other craft may operate within the danger zone.

(8) All projectiles, bombs, and rockets will be fired to land on Bloodsworth Island or Pone Island, but Naval authorities will not be responsible for damage by such projectiles, bombs, or rockets, or by Navy or Coast Guard vessels, to nets, traps, buoys, pots, fish pounds, stakes, or other equipment

which may be located within the danger zone.

(9) The regulations in this section shall be enforced by the Commander, Naval Base, Norfolk, Virginia, and such agencies as he/she may designate.
